

# ADHESIVE WEIGHT ROLL TYPE 355 2.0

## OPTIMIZED SEGMENT DESIGN

Better attachment of the weight to the rim radius thanks to the trapezoid shape segments. Higher robustness of the product.

## UNIVERSAL APPLICATION

Universal 5 kg steel adhesive weight roll with 5 g segmentation for the aftermarket.

## ULTRALINER®

Maximum adhesive strength right from the start on cold, dirty or matt rims and when surface tension is too low thanks to ULTRALINER® adhesive tape.

## SPEEDLINER®

High final adhesive strength at OE level with simultaneous residue-free removability thanks to patented SPEEDLINER® adhesive tape.

SPECIFICATIONS	ULTRALINER®	SPEEDLINER®
Vehicle type	Passenger cars	
Rim type	Alloy rims	
Adhesive tape	Patented ULTRALINER® with blue protective film	Patented SPEEDLINER® with transparent protective film
Overlapping protective film (finger lift)?	Yes	Yes
Removable without residue?	No (The soft foam without reinforcing film does not allow this)	Yes (Thanks to stable structure with specially developed reinforcing film)
Suitability for dirty, cold or matt rims?	Very good (The soft foam optimally encloses unevenness on residual dirt or rough rims. The adhesive has been specially developed for cold processing temperatures.)	Conditionally (The stiffer adhesive tape requires a well pre-cleaned rim surface. The processing temperature should ideally be above 10° C.)
Suitability for high storage rates?	Conditionally (Due to the fact that the weights cannot be removed without leaving residue, more time and additional tools such as scrapers, eraser plates and cleaners are required for removal.)	Very good (The patented adhesive tape enables the weights to be removed quickly and without leaving any residue. This saves a lot of time and money in the balancing process. The more rims are stored and balanced on a recurring basis, the greater the benefits and potential savings.)
Segment Color	Silver (5355-0057-439) Black (5355-0058-439) Titanium Grey (5355-0059-439)	Silver (5355-0057-739) Black (5355-0058-739) Titanium Grey (5355-0059-739)
