

ALLIGATOR TIRE INFLATORS

Precise measurement results - Robust & reliable - Practical handling

GATOR INFLATOR MAX

THE TIRE FILLER FOR EXPERTS

Precise. Practical. High Quality.

- 1 **Calibrated** - for precise tire pressure measurement; manometer made in Germany!
- 2 **Standard air quick coupling**
- 3 **Multiple connection options available**
- 4 **Air hose** - flexible rubber hose for an ergonomic working position
- 5 **Aluminum handle** - robust and non-slip
- 6 **Operation lever** - made of plastic for a easy handling even with one hand!
- 7 **Hanging loop** - for simple and fast storage

GATOR INFLATOR MID

THE TIRE FILLER FOR PROFESSIONALS

Simple. Reliable. Multifunctional.

- 1 **Calibrated** - for precise tire pressure measurement; manometer made in Germany!
- 2 **Standard air quick coupling**
- 3 **Multiple connection options available**
- 4 **Air hose** - flexible rubber hose for an ergonomic working position
- 5 **Aluminum handle** - robust and non-slip
- 6 **Operation lever** - made of metal for a easy handling even with one hand!
- 7 **Hanging loop** - for simple and fast storage

GATOR INFLATOR MID DIGITAL

Particularly suitable for TPMS due to the precise indication of decimal places.

- 1 **Calibrated** - Quick and easy-to-read digital pressure gauge with illumination
- 2 **Standard air quick coupling**
- 3 **Air hose** - flexible rubber hose for an ergonomic working position
- 4 **Aluminum handle** - robust and non-slip
- 5 **Operation lever** - made of metal for a easy handling even with one hand!
- 6 **Hanging loop** - for simple and fast storage

GATOR INFLATOR BASIC

THE TIRE INFLATOR FOR ALL PURPOSES

Simple. Robust. Quick.

- Analog (bar scale)
- Analog (bar + psi scale)
- Digital (switchable bar/psi)

Not calibrated, but fully tested for workshop use in accordance with DIN EN ISO 12645.

- ✓ Ergonomic operating handle
- ✓ Robust compressed air hose
- ✓ Practical hanging loop

GATOR INFLATOR

Measuring range: 0 to 12 bar
