

TYRE MOUNTING PASTE

Black

- High lubricity**
 Reduced effort and time required due to simple (dis)assembly of the tyres.
- Firm tyre fit**
 Tyre migration is prevented by frictional connection between rim and tyre.
- The right solution for every need**
 Available in three viscosities: soft, universal, hard.

Color	Black
Content	5 kg
Packaging	Bucket
Lubricity	High
Drying behavior	Fast drying (ideal for fast processing of a tyre)
Application temperature	-15 to +50°C
Environmental compatibility	Biodegradable, vegan & chemically neutral towards rubber, steel & aluminum
Vehicle type	

Viscosity	Soft	Universal	Hard
Article number	3401-0503-101	3401-0505-101	3401-0507-101
Application	Time-saving.		Cost-efficient.
	Easy brush pick-up. Ideal for large-area, light brush application.	Moderate brush pick-up. Easy to dose & apply.	Economical brush pick-up. Ideal for precise dosing.
Yield	Approx. 350 tyres	Approx. 400 tyres	Approx. 450 tyres
Note	Ideal for cold ambient temperatures.	Ideal for moderate ambient temperatures.	Ideal for warm ambient temperatures.
