

SPEEDCUT® AND ACCESSORIES

SPEEDCUT®

Rollholder for all HOFMANN POWER WEIGHT adhesive rolls with integrated weight scale and innovative cutting device.

Features:

- Specifically developed for rolls from HOFMANN POWER WEIGHT
- Robust, practical design with reduced wear parts
- Integrated weight scale for measurement
- Easy refill of rolls
- Easy replacement blade
- Multifunctional for the installation at the wall, balancing machine or on the floor stand

Contents: 1 x SPEEDCUT®

Part number: 0401-0023-150

FLOOR STAND WITH ACCESSORIES

Floor stand with accessories for SPEEDCUT® for flexible placement.

Features:

- Specifically developed for the workshop
- Prepared for up to two SPEEDCUT® rollholders (e.g. silver and black)
- Multifunctional sidewall with holes for tools
- Easier working with two integrated waste bins

Contents: 1 x floor plate incl. 4 screws
1 x stand incl. 4 screws for SPEEDCUT®
5 x hooks for perforated wall
1 x waste bin for weights
1 x waste bin for protective films

Part number: 0401-0023-181

REPLACEMENT BLADE

Blade for SPEEDCUT® in a rack with feeding assistance, easy to replace.

Contents: 1 x replacement blade
Part number: 0401-0023-152

INLAY TRAY FOR 4 ROLLS

Inlay tray for SPEEDCUT® floor stands. The inlay tray offers a convenient storage directly at the working station for up to 4 HOFMANN POWER WEIGHT rolls.

Contents: 1 x inlay tray for 4 rolls
Part number: 0401-0023-182

WASTE BIN FOR PROTECTIVE FILM

Waste bin for protective film for installation on the SPEEDCUT® for easy disposal of the removed protective film.

Contents: 1 x waste bin for protective film
Part number: 0401-0023-154

SPEEDCUT MAGNET

Magnet for mounting behind the weight scale of the SPEEDCUT® roll holder. Prevents the adhesive weight roll from rolling back into the box. Easy to mount.

Contents: 1 x magnet
Part number: for Type 355 2.0 0401-0023-156
for Type 358 & 359 0401-0023-157

FROM PROFESSIONALS - FOR PROFESSIONALS

WORKSHOP OPTIMISED SYSTEM FOR ADHESIVE WEIGHTS WITH INNOVATIVE CUTTING DEVICE.

The multifunctional adhesive rolls guarantee easier storage since a roll always provides the suitable weight. Additionally, all rolls are equipped with the SPEEDLINER® tape that can be removed without leaving any residue. The engineers of HOFMANN POWER WEIGHT also developed the SPEEDCUT®, a rollholder for professional use. The box of the roll and the SPEEDCUT® are matched perfectly to each other for best work results.

■ easy ■ fast ■ safe

ADHESIVE ROLLS FOR ALUMINIUM RIMS

INNOVATIVE PRODUCT DESIGN

Easier storage thanks to multifunktional rolls - always the suitable weight.

- Available in two colours - silver/black
- No breakline on the tearing edges thanks to the separate segments
- 3 mm fingerlift for easy removal of the protective film

SPEEDLINER®- TECHNOLOGY

SPEEDLINER® adhesive tape - residue-free removal and strong adhesion in one.

- Removeable without leaving traces
- Higher initial adhesive force
- Easy liner removal

INTELLIGENT BOX-CONSTRUCTION

Best work results - box and **SPEEDCUT®** match each other perfectly.

- Roll in box ready to use
- Trace-optimised packaging unit
- Eco-friendly packaging without plastic

TYP 355 2.0

Steel endless adhesive weight with 1,000 zinc plated and coated segments of 5 grams each on a roll.

Features:

- The aftermarket alternative made of steel
- Optimized segment design
- Simplified cutting due to SPEEDCUT® optimized geometry
- With residue-free removable SPEEDLINER® adhesive tape or extra strong adhesive ULTRALINER® tape for cold, dirty & dull rims

Height:	3,8 mm	
Width:	19 mm	
Total weight:	5 kg	
Packaging unit:	1 roll/box	
SPEEDLINER® Part numbers:	silver	5355-0057-739
	titanium gray	5355-0054-739
	black	5355-0058-739
ULTRALINER® Part numbers:	silver	5355-0057-439
	black	5355-0058-439

TYP 375

Continuous adhesive weight roll with 1,000 coated zinc segments of 5 grams each.

Features:

- The aftermarket alternative made of zinc
- Optimized segment design
- Successor to Type 356 & 357
- High-quality premium coating in OE quality
- Optimized corrosion protection due to zinc alloy
- Simplified cutting due to SPEEDCUT® optimized geometry

Height:	3,8 mm	
Width:	19 mm	
Total weight:	5 kg	
Packaging unit:	1 roll/box	
Part numbers:	silver	5375-0050-739
	black	5375-0053-739

TYP 358

Continuous adhesive weight roll with 2,000 coated zinc segments of 2.5 grams each.

Features:

- OE weight from Porsche & Volkswagen
- Successor to Type 361
- Optimal balancing result due to 2.5 g segmentation
- High-quality premium coating in OE quality
- Optimized corrosion protection due to zinc alloy
- Simplified cutting due to SPEEDCUT® optimized geometry

Height:	4 mm	
Width:	19 mm	
Total weight:	5 kg	
Packaging unit:	1 roll/box	
Part numbers:	silver	5358-0020-736
	black	5358-0023-736

TYP 359

Continuous adhesive weight roll with 2,000 coated zinc segments of 2.5 grams each.

Features:

- OE weight from Audi & BMW
- Successor to Type 360 & 390
- Optimal balancing result due to 2.5 g segmentation
- High-quality premium coating in OE quality
- Optimized corrosion protection due to zinc alloy
- Simplified cutting due to SPEEDCUT® optimized geometry

Height:	6 mm	
Width:	15 mm	
Total weight:	5 kg	
Packaging unit:	1 roll/box	
Part numbers:	silver	5359-0027-736
	black	5359-0028-736
