

TYRE MOUNTING PASTE

Transparent

■ Very high lubricity

Reduced effort and time required due to simple (dis)assembly of the tyres.

■ Firm tyre fit

Tyre migration is prevented by frictional connection between rim and tyre.

■ The right solution for every need

Available in three viscosities: soft, universal, hard.

Color	White (transparent)
Content	5 kg
Packaging	Bucket
Lubricity	Very high
Drying behavior	Transparent, slow drying (ideal for parallel processing of tyres)
Application temperature	-15 bis +50°C
Environmental compatibility	Biodegradable, vegan & chemically neutral towards rubber, steel & aluminum
Vehicle type	

NOTE

- Highly effective paste due to special formulation.
- Apply sparingly recommended.

Viscosity	Soft	Universal	Hard
Article number	3402-0503-003	3402-0505-003	3402-0507-003
Application	Time-saving. Easy brush pick-up. Ideal for large-area, light brush application.	Moderate brush pick-up. Easy to dose & apply.	Cost-efficient. Economical brush pick-up. Ideal for precise dosing.
Yield	Approx. 350 tyres	Approx. 400 tyres	Approx. 450 tyres
Note	Ideal for cold ambient temperatures.	Ideal for moderate ambient temperatures.	Ideal for warm ambient temperatures.
