

WEGMANN automotive at TIRE COLOGNE 2024

Veitshöchheim, 08.02.2024

Discover our company, our strong brands and our diverse product portfolio - everything for professional tire service from 04 - 06 June 2024 at TIRE COLOGNE. We will be presenting our bestsellers and new product highlights from the areas of balancing weights, valves, TPMS, inflation equipment and mounting paste. Convince yourself about our products during live demonstrations at our stand (Hall 8.1, Stand: D36 / 38).

STRONG COMPANY, STRONG BRANDS.

WEGMANN automotive - tradition since 1882. We are the world market leader no. 1 in balancing weights and battery bushings. Our high innovative spirit empowers us to continuously develop and thus make a high contribution to value creation in Germany and Europe. We are proud to always stand by our customers as a reliable partner and to work out common solutions. In doing so, we never lose sight of our values and tradition. As an independent family-run business, our customers and service are always our focus. We distinguish ourselves from other suppliers through market-driven structures and services, for optimal distribution, excellent on-site support and superior customer service. With our HOFMANN POWER WEIGHT, ALLIGATOR and Perfect EQUIPMENT brand portfolio, we offer a broad product range that perfectly covers the needs of both the OEM and the Automotive Aftermarket.

HOFMANN POWER WEIGHT – THE RIGHT WEIGHT FOR EVERY RIM

For decades, HOFMANN POWER WEIGHT products have set standards worldwide and stand for durable, long-lasting balancing properties and maximum balancing accuracy. All HOFMANN POWER WEIGHT balancing weights are manufactured according to the high requirements of the automobile manufacturers. Outstanding OEM quality, the best

assembly properties and fitting accuracy combined with first-class corrosion protection are the particular strengths of HOFMANN POWER WEIGHT balancing weights. The HOFMANN POWER WEIGHT brand combines a long company tradition and history with the young thinking of a rapidly growing international brand.

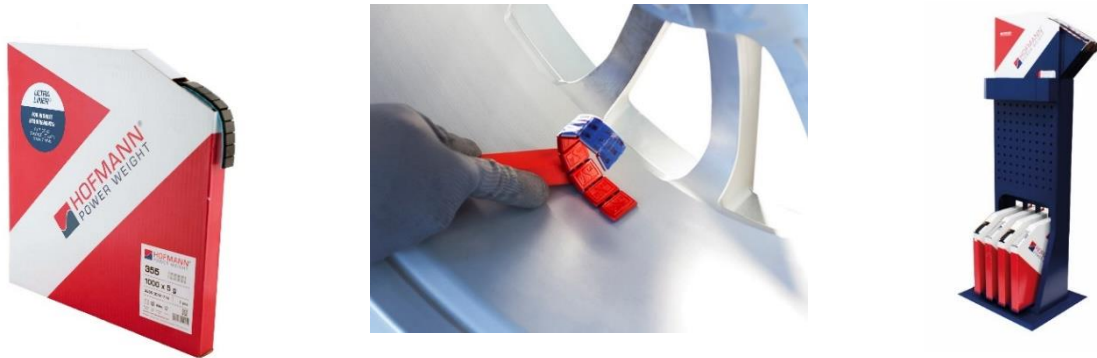

Image 1: Weight type 355 2.0

Image 2: SPEEDLINER® /ULTRALINER® Technology

Image 3: SPEEDCUT®

ADHESIVE WEIGHT ROLL TYPE 355 2.0

Discover our optimized adhesive weight roll type 355 2.0 at this year's TIRE COLOGNE. The new segment design offers a better adaptation of the weight to the rim radius due to the trapezoidal segments and thus enables the best possible grip.

SPEEDLINER®-/ULTRALINER® - tape

Take a look at our range of adhesive weights and the selection of our patented SPEEDLINER® and ULTRALINER® adhesive tapes. The SPEEDLINER® offers maximum adhesive strength and 50% time savings in one. It is a great relief for the workshop, especially due to the residue-free removal when dismantling the weights at a later stage. The ULTRALINER®, on the other hand, offers maximum adhesive strength in sub-optimal conditions such as cold, dirty and matt rims as well as surface tension is too low.

SPEEDCUT®

We invite you to test our SPEEDCUT®, our workshop-optimised cutting device for adhesive weight rolls. This roll holder has been specially developed for the needs of the workshop. The cardboard packaging of the SPEEDLINER® rolls and the SPEEDCUT® fit together perfectly and enable optimised work processes in the daily routine of a workshop.

Image 4: Knock-on aid

KNOCK-ON AID FOR THE ASSEMBLY OF KNOCK-ON WEIGHTS

The practical knock-on aid with integrated magnet supports you by mounting the knock-on weight to the rims especially when assembly unwieldy, small grammages. It increases your work safety and avoid downtime due to injuries.

ALLIGATOR - YOUR EXPERT FOR VALVES, TPMS AND AIR PRESSURE SYSTEMS

Our customers are the focus of ALLIGATOR's activities - and have been for more than 100 years. That is why in the development of our products we place particular emphasis on the highest quality standards. Today, under the umbrella of WEGMANN automotive GmbH, more than one million ALLIGATOR products are manufactured every day in Europe and sold to customers in more than 60 countries around the world. ALLIGATOR is an expert for valves, TPMS and air pressure systems and offers practice-oriented solutions for all application areas. All these products have one thing in common: they are optimized for the needs of the end customer and the workshop.

Image 5: GATOR INFLATOR MID calibrated

The optimum tire pressure is essential for the smooth operation of a tire. It ensures that the tire does not wear out too quickly and contributes to safety during the entire journey. This year, you can discover our complete portfolio of tire inflators at the trade fair. Measuring twice is a thing of the past: the calibrated pressure gauges in combination with the high-quality finish ensure precise work and reliable measurement results in every workshop.

Image 6: RS+ sensor with adjustable metal or rubber valve

Get to know the new RS+ sensor at our stand, which communicates with the vehicle of your choice in all "languages". Convince yourself of our sophisticated packaging concept, the high vehicle coverage of the sensor and our comprehensive service including our intuitive software, which makes programming a breeze.

Image 7: TPMS – valves for trucks

Ready for the future of truck safety? Discover our advanced TPMS valves for trucks. With an innovative product portfolio and precise pressure monitoring, our truck valves offer safety on every road.

UNIVERSAL SOLUTIONS AROUND THE WHEEL

The Perfect EQUIPMENT brand offers workshop-tested universal weights for almost all rims as well as standard valves, tools and other accessories at an attractive price. Perfect EQUIPMENT stands for good product quality and a firmly broad product portfolio. We offer market-driven structures and services for optimal product distribution and good on-site support. At Perfect EQUIPMENT you get universal solutions around the wheel from one source.

Image 8: Mounting paste transparent

Our specially developed tire mounting paste in transparent ensures easy and safe mounting of your tires, reduces the risk of tire migration and makes work easier for the user thanks to its very high lubricity.

Image 8: Tyre sealant

The solution for unexpected leaks and cracks on your tire is our durable tire sealant. Whether your tire get hit by a nail or other damage appears on the tread of your tire, Perfect EQUIPMENT's efficient tire sealant will fix leaks immediately and reliably. We offer two types of tire sealant: "high speed" for cars, trucks, trailers, caravans and campers and a "heavy duty" version for mining, forestry and agriculture. With its simple application and long-lasting effect, our product is an essential item for every journey. This increases the service life of the tires and reduces downtimes and maintenance costs.

We look forward to seeing you at our stand!

ABOUT WEGMANN AUTOMOTIVE
