

## WE'VE NEVER MET A STRANGER

sens.it RS+ speaks your language too.

- Only one sensor for all vehicle models.
- Just-in-time programming for vehicle-specific spare parts.
- There's no easier way: program – teach – drive.

**Short service times  
without waiting for the  
right spare part**

**Standardized  
assembly**

**Less storage costs**

## WE SPEAK YOUR LANGUAGE

**sens.it** <sup>RS+</sup>

TPMS universal sensors  
can talk to any car.

**Aluminum valve, silver**

- Qty: 12 sensors, partly assembled
- Mounting: Ball-joint
- Frequency range: 433 MHz
- Valve angle: Adjustable 12-40°
- Valve type: Silver aluminum valve

Art. no. 9-591132

**Aluminum valve, black**

- Qty: 12 sensors, partly assembled
- Mounting: Ball-joint
- Frequency range: 433 MHz
- Valve angle: Adjustable 12-40°
- Valve type: Black aluminum valve

Art. no. 9-591136

**Snap-in rubber valve**

- Qty: 12 sensors
- Mounting: Screwing system
- Frequency range: 433 MHz
- Valve angle: Rigid 20°
- Valve type: EPDM snap-in rubber valve

Art. no. 9-591134

**REPLACEMENT VALVES**

9-030000 9-590906 9-590904 9-590908 9-591320

**Coverage list**

- Listing of all vehicle models covered by sens.it RS+ sensors.
- Constant adding of new models.
- Coverage list is updated regularly.

**OPTIMIZE YOUR WHEEL CHANGE WITH THE SENS.IT RS+ SENSORS.**

**99,7% coverage**

99.7

For universal use: Our sens.it RS+ TPMS sensors speak the language of 99.7% of all vehicles.

**OE QUALITY**

with full OEM functionality, reliable battery & valves made by German engineers.

**COMPATIBILITY**

with all commercially available diagnostic devices & standard valves.

**FREE SUPPORT**
