NEW LAW, NEW VALVES -
ALLIGATOR presents new TPMS valves for trucks

Veitshöchheim, 17.05.2024

Prepared for the new mandatory TPMS for trucks? Do you have the right products in stock? From July 2024, the new law will come into effect, making the use of tire pressure monitoring systems (TPMS) mandatory for all trucks. Not only fleet operators, but also workshops and wholesalers need to prepare for this. This is because the demand for TPMS products will also increase noticeably in the spare parts market. As a valve expert, ALLIGATOR has responded to this development by expanding its range of TPMS valves for trucks.

YOUR FAVORITES – NOW WITH TPMS

Not everything has to be new - sometimes it is enough to enhance popular and proven products. ALLIGATOR has done just that and included your favorite valves as TPMS-compatible versions in the truck TPMS series. Familiar models such as the RDK32MS, RDK41MS or the highlight product RDK58MS, which are already in use in many truck and trailer rims, are now also available as TPMS valves. So that you are optimally equipped for the coming requirements.

ALLIGATOR TRUCK TPMS VALVE PORTFOLIO – QUALITY AND VARIETY

Whether straight or curved, ALLIGATOR offers a wide range of truck TPMS valves in various lengths and materials. The valves with screw connection system for secure connection of the sensor are suitable for truck and trailer rims with direct TPMS and impress with ALLIGATOR quality. Valves that simply work!

OPPORTUNITIES AND CHALLENGES FOR THE INDUSTRY

The introduction of the TPMS regulations for trucks brings many advantages such as increased road safety and cost savings for fleet operators. For workshops, the TPMS obligation opens up new service and sales opportunities as the need for TPMS

components increases. This could lead to increased demand and new business models, increasing the potential for long-term customer relationships.

However, there are also challenges to overcome. Workshops need to build up their TPMS expertise and ensure they have the right knowledge and products in stock. Technical differences between truck and car systems require specific training. Conversion to the new regulations can take time and additional staff.

PREPARE NOW AND ORDER TRUCK RDKS VALVES ONLINE

Whether you need supplies for the workshop or want to expand your wholesale range - you're ready to go with just one click. All ALLIGATOR TPMS valves for trucks and many other tire service products can be found in well-stocked specialist shops or online in the B2B Partner Shop.
